

# REFRESHER TRAINING ON DATA MANAGEMENT SYSTEM.

Feb 14-16, 2022

The National Center for HIV/AIDS, Dermatology and STD (NCHADS) has been conducting a refresher training in Mondulkiri province on updating database systems to all provincial data management officers and data entry clerks with financial support from GFAMT.

The objective of this training is to orientate on new updated features of databases and refresh on how to use current databases such as NPD, VCCT, ART and B-IACM.

This training also focusses on data use and analysis for calculating indicators as well as new reporting format orientation.

The participants were from NCHADS relevant unit, representative of EpiC-FHI360, data management officers and data entry clerks in ART services from 9 provinces including Oddarmeancheay, Banteaymeancheay, Battambang, Siem Reap, Pursat, Pailin, Kep, Koh Kong and Phnom Penh.

The training was started from the honorably opening ceremony by **Dr. Samreth Sovannarith**, deputy director of NCHADS and followed by the important sessions to reflex to the training objectives.
